## DATA ANALYST WITH FRONT-END WEB DEVELOPER

I'm a data enthusiast and front-end developer skilled in data analysis with Excel, Power BI, Tableau, and Google Analytics. Proficient in MySQL and MongoDB for database management, I build dynamic web applications with HTML, CSS, JavaScript, and React, and develop back-end solutions using Python, Django, and Flask, with a passion for machine learning and data visualization.

## TECHNICAL SKILLS

Python	Data Storytelling	Advanced Excel	HTML, CSS, Javascript
Data Modelling	Power Bi Desktop and Services	SQL and SQL Server	Flask, Django, React Js
Data Visualization	Power Query (M-Query)	MySQL	Mongo DB
Data Cleaning	Dax	Tableau	

## PROFESSIONAL EXPERIENCE

Intern

Jul 2024 - Oct 2024

Team Leader

Led a team of six data analysts and web developers to develop and deploy scalable web applications. Managed timelines and resources, ensuring quality through testing and debugging strategies. Mentored juniors in web development and data analysis, and organized team meetings and training sessions to foster knowledge sharing and growth.

## PROJECTS

**Sales Insights by using Tableau** [LINK](#)

The workbook analyzes sales by months, quantity, revenue, market, and year, highlighting top customers and products. Two dashboards—Profit and Revenue—offer insights into financial performance, making it easy to track trends and key metrics effectively.

**Blogging Site using Django** [LINK](#)

It includes user authentication, post creation, editing, and deletion features. Users can register, log in, and manage blog posts with a clean, responsive interface.

## EDUCATION & CERTIFICATIONS

**Master of Computer Applications**  
July,2025(Expected Completion)

**Bachelor of Business Administration**

### COURSE

Data Analyst

## PROJECT CERTIFICATES

**Stock Management System**  
Python, MySQL

**Blog Project**  
Django, Python
